

Contact

Contact support@fdxtended.com or call us at +32 3 296 29 78.

License inquiries

When you have troubles with your license, please send the *Install code* or *Machine ID* with your request ([find your Install Code or Machine ID](#)).

Remote access

If you wish for us to log onto your HSMX machine for troubleshooting; make sure to provide remote access details and credentials in your inquiry. In order of preference we reach the HSMX using a public IP, a port-forwarded SSH port or VPN tunnel.

Alternatively we can access the HSMX with your [licensing](#) details and credentials. Don't forget to [enable remote access](#) on the HSMX.

Security Mailing List

Subscribe to our (irregularly) published security mailing list and be informed about security updates related to HSMX in a timely manner. To subscribe send an e-mail to support@fdxtended.com.
